

SSC -> CGPA 7.7/10 → 2009 to 2019

Diploma -> EEE -> CGPA 6.13/10 → 2019 to 2022

Regular 1-1, 3-1, 3-2 All clear

Backlogs written 1-2 1 Backlog Cleared -> Engineering Mathematics

Backlogs written 2-1 to 3-2 5 Backlog Excepted

- Applied Engineering Mathematics (Subject Exception)
- Electronic Circuits (Subject Exception)
- Advanced Engineering Mathematics (Subject Exception)
- General Mechanical Engineering (Subject Exception)
- Digital Electronics (Subject Exception)

Total Written Backlogs in Diploma including passes Subjects: 1-1: All Cleared No backlogs

1-2: 1 Backlog Cleared

2-1: 5 backlogs 3 cleared 2 exception

2-2: 5 backlogs 2 cleared 3 exception

3-1: All Cleared No backlogs

3-2: All Cleared No backlogs

NIES Training Center → Diploma EEE 3-2 semester 6 months

Bachelors of technology → Computer Science and Engineering (AI/ML) → 2023 to 2026

2023 to 2026 (Lateral Entry) 120 Credits CGPA 7.7 to 8.01 (Avg: 7.9)

Regular Exams passed semesters → 2-2

Backlogs:

- 2-1: Software Engineering (Cleared) 1st attempt
- 3-1: Design Analysis & Algorithm (Cleared) 1st attempt
- 3-1: Computer Networks (Cleared) 1st attempt
- 3-2: Natural Language Processing (Result Pending) 1st attempt
- 4-1, 4-2: Results Pending Regular

B.tech College MoU Courses:

Edunet → SAP - ABAP Advance course (ML, IoT, DL, CV & SAP advanced Business Application Programming (ABAP) on Business Technology Platform)

AICTE → Skill India → Recognized by skill Competency → PMKVY → IT-ITeS Sector Skills Council
== AI Machine Learning Engineer Level 5

Project Works based on Edunet SAP:

- Self-Driving Car using Raspberry Pi and Sensor/Camera Fusion
- AutoWealth AI – LLM-Driven Autonomous Budgeting & Multi-Asset Investment System

Experiences:

- Digital Nexus AI (4 Months) → May to September
- (Role: Gen AI/LLM Intern)

→ Edunet(Source of Application) → Produgal AI Technologies Pvt. Ltd Internship (8 Months) → March to November

- (Role: Agentic AI Intern)
- Source Pivot → Expert Consultant - (1 session)

Internship training period projects:

- Digital Nexus AI: { 1.Task BreakDown Agent
2.Auto Documentation Tool
3.Codebase Q& A
4.PDF chatbot }
- Produgal AI Technologies Pvt Ltd: {

1. Transformer models - fine tuning
2. LLM Fine-Tuning and RAG QA System }

Virtual Experiences:

- Mastercard - Cybersecurity Job Simulation from [Forage](#)!
- J.P. Morgan's Software Engineering on Forage

Certifications From Online Sources:

- foundation of cybersecurity -> Coursera (google)
- google data analytics -> Coursera
- Intro to computers and os and security -> Coursera (Microsoft)
- Networks & Cisco Devices
- play it safe -> Coursera (google)
- python data structures -> University of Michigan (Coursera)
- EHE From CodeRed -> EC-Council

Personal projects:

- AI_Governance_Project
- IdentityGuard-Core
- personal_portfolio
- Fault-Tolerant Microservices Platform
- Cloud Auto-Scaler with Real-Time Monitoring

Academic Credit based Projects:

- 2-2: Real-time Research Project -> A Driving Decision Strategy (DDS) based on Machine Learning for an Autonomous Vehicle
- 3-2: Industrial Oriented Mini Project -> Blockchain based Federated learning system with secure model verification in healthcare
- 4-2: Project Stage - 1&2 -> Title Unknown pending for selection and projects

Minor Certification in AI:

- IIT Ropar

Achievements & leaderships:

- Smart India Hackathon 2023
- (Code For Fun)Hackathon - Event Udbhav 2025 (Organizer/Mentor/President)
- (Hackverse) Hackathon - Jan 2026 (Organizer/Mentor/President)

Research papers:

- Guided Multi-Modal Sampling: A White-Box Input Protocol for Enhancing Expressivity in Zero-Shot Voice Cloning with Mixture-of-Experts
- This paper Title is Not finalized But its base case is
 - “Reinforcement with Human in the Loop:
 - Prompt Injection, Prompt Poisoning,
 - Role Based Access to LLMs,
 - AI Agent Evals,
 - Tamper Proofing AI Training Data
- Our suggestion:
 1. Make training data blockchain hashed for security
 2. Provide instruction prompts with priority to safeguard
 3. Role based access
 4. Prompt Insertion to handle tug of war or contradictory situations amongst prompts
 5. RHLF calling in case of any destructive action”
